TERMS OF SALE.

PHILADELPHIA, January 1, 1914.

All bills purchased after this date will be charged at the prices quoted herein,—unless *special offers* are made by letter or telegram and *referred to* in the order. Not less than ten pounds of one variety will be invoiced at the rates per hundred pounds.

Terms of Credit.—To regular customers and well-known houses of established credit, all bills bought from this catalog are due June 1st, without regard to date of purchase, excepting Beans, Corn and Peas on which terms are (except when included in a general order) sixty days net or subject to a discount of one and a half per cent. for cash within ten days of invoice. *All accounts are subject to sight draft on June 10th, if payment is not received previously by mail.* Goods purchased after June 1st are payable on October 1st and subject to sight draft.

Bills purchased on special quotations, made by letter or telegram, are *net* sixty days from date of invoice, or subject to a discount of one and a half per cent. for cash within ten days of date of invoice.

Grass and Clover Seeds, Onion Sets and Seed Potatoes in quantity, are invariably **net cash.**

Unknown correspondents desiring credit are requested to give satisfactory reference in Philadelphia or New York.

Cash Discount.—We allow a discount of **Five Per Cent.** on orders accompanied by a cash remittance, and also on all bills except where Beans, Corn and Peas only are ordered (at catalog prices) paid within ten days from date of invoice, or a discount of **One Per Cent. a month** on all bills (at catalog prices) if paid before June 1st.

The Prices Quoted are those ruling at this date. We expect to adhere to them through the spring, except where important changes compel us to advance or reduce our prices, when we shall be governed by the market. **10 lbs. and more will be supplied at the rates per 100 lbs.:** $\frac{1}{2}$ lb. and $\frac{1}{2}$ bushel at pound and bushel rates; but *smaller quantities will be charged at a higher rate.*

NO CHARGE for Packing or Cartage.—Bags and boxes are charged *at Cost.* After delivering to forwarders in **good order** (as shown by Bill of Lading) our responsibility ceases.

Insurance will be effected only when so directed.

SEALED PACKAGES.—We make no charge for sealing **pounds, pecks, or bushels,** but at the low bulk prices quoted, we shall charge for putting up in smaller sealed packages, when so ordered, as follows:

In Ounces.—One cent per ounce, 50 cts. per 100 ounces.

In Quarter-Pounds, Pints, and Quarts.—Two cents for each package.

In Two-Quarts and Four-Quarts.—A charge of three cents per package.

WE DO NOT COMMISSION SEEDS.—In response to hundreds of inquiries each year, we would state that we **positively decline to send out any Seeds on Commission.** Dealers handling seeds in packets will be supplied on liberal terms, and by ordering judiciously, those left over can be destroyed, and the business yet be more profitable and satisfactory than the handling of commission seeds.

Discounts TO THE TRADE From our Retail Prices.

In our Retail Catalog—**BURPEE'S NEW ANNUAL FOR 1914**—are many varieties of seed and books for which frequently other Seedsmen receive retail orders. We supply

**All Seeds in Packets at 50 Per Cent. Discount.
500 packets or more at 60 Per Cent. Discount.**

Excepting the Four New Sweet Peas now first offered.

Small quantities from our Retail Catalog, which cannot be invoiced at the low pound or bushel prices quoted herein, are charged at the following rates of discount from retail prices:

Vegetable Seeds by the Ounce, - - -	40	per cent. discount
Seeds by the Quart or Pint, - - -	33 $\frac{1}{3}$	" "
Seeds in Collections (except "Dollar Box")	40	" "
Potatoes by the Pound, - - -	40	" "
Bulbs in Collections, - - -	20	" "
BOOKS on Garden Topics, - - -	40	" "

At the above liberal rates of discount the goods travel at expense of purchaser, and when sent by mail the cost of postage will be added to the invoice.

The Burpee-Quality in Seeds

PHILADELPHIA, January 1, 1914.

THE steady increase from year to year in the BURPEE BUSINESS is due not only to the constantly widening circle of planters who have confidence in our strains of seeds, but also to the fact that intelligent *Dealers in Seeds* recognize that *it pays* to handle High Grade SEEDS OF THE BURPEE-QUALITY and thus make pleased customers.

OUR OLD CUSTOMERS,—many of twenty to thirty years' standing,—need no new assurance of fidelity on our part. The Burpee reputation for SEEDS OF QUALITY has been built upon an aim always to maintain the truth of our motto:—

Burpee's Seeds Grow and are The Best Seeds that can be Grown

In thirty-seven years of successful seed selling we have introduced more Novelties that are now in general cultivation than have any three other firms. We produce Selected Stocks upon our own seed farms in Pennsylvania, New Jersey and California, while FORDHOOK FARMS are famous as the largest trial grounds in America. No Government Experimental Station attempts such complete trials each season, and the information here obtained is of incalculable benefit both to planters and seedsmen everywhere.

For honest descriptions that *really describe* the characteristics of the various Vegetables and Flowers, with illustrations from photographs, kindly consult our Retail Catalog, copy of which has been already mailed to you.

The printed prices have been fixed at actual values as they appear to-day. Wherever possible, however, we shall be pleased to make **Special Quotations by mail or wire** to buyers of large quantities. Trusting to be favored with your orders throughout the season, and assuring you of prompt and faithful attention,

We remain, sincerely yours,

Burpee Buildings:

Telegraphic Cipher (or Cable Code)

FOR WEIGHTS AND MEASURES.

The telegraphic cipher word for quantities must always precede the cipher words for seed, but if the same quantity of several varieties is ordered, the cipher word meaning that quantity need be placed only before the first. For example :

Arad Jaundice, Jean, Benares, Calliope, Lamprey, Malmo Balcony, would mean, ship at once, cheapest route, ten pounds each **HELEN PIERCE** and **JANET SCOTT SWEET PEAS**, twenty-five pounds each **BURPEE'S ALLHEAD EARLY CABBAGE** and **BURPEE'S EARLIEST WAY-AHEAD LETTUCE** and ten bushels **BURPEE'S STRINGLESS GREEN-POD BEAN**.

Our customers will find this a very inexpensive way of wiring their orders, but we must caution them that care be taken in writing out the messages, as we cannot hold ourselves responsible for errors arising from incomplete messages or incorrect translation.

IMPORTANT.—This telegraphic cipher must be used **ONLY** on orders by telegraph or cable, and never in written orders sent by mail.

TELEGRAPHIC CIPHER FOR PRICES.

The cipher or code-words given on this page are principally for our use in making quotations. For example :

Dab Cefalu Carding Debauch, Tokay Bacon Densely, would mean : In reply to your telegram, we quote for immediate acceptance upon our usual terms for special quotations, provided unsold upon receipt of your order, one hundred pounds BURPEE'S SUREHEAD CABBAGE at \$1.65 per pound, two hundred bushels EXTRA EARLY RED VALENTINE BEAN at \$4.25 per bushel. These code-words can be used also if, when placing a telegraphic order, you wish to specify price quoted. For example :

Dare Angola Perturb Deburse Mocha Bib Dew, meaning : Ship at once by freight, as per special quotations, five pounds RUBY KING PEPPER at \$1.85 per pound, sixteen bushels BURPEE'S BUSH LIMA BEAN at \$6.50 per bushel.

 By exercising ordinary care in preparing the telegram you can save time and money by the use of our code system. When possible, telegraphic orders are filled and shipped the same day they are received.

For Code-words for Quantities, Orders, etc., see pages 2 and 3.

Best Seeds that Grow for 1914,

Tested and Proved at our Fordhook Farms.

THIS PACKAGE (IF UNBROKEN) CONTAINS ONE OUNCE OF

Here follows the same "electrotyped" label as printed on our packet bags,—giving in full the name of the variety, and in case of the more important Vegetables and Flowers, also an illustration, description, and frequently directions for culture. Every package bears our full firm name, and is neatly printed in black ink, presenting a more attractive appearance than do the usual gaudy lithographed bags.

Every ounce-package is **dated** as above.

Packets, although not dated (because the electrotypes generally require the entire front of the bag), are all filled with the same choice quality of the **Best Seeds that Grow for 1914.**

W. ATLEE BURPEE & CO., Seed Growers.

Seeds of the best quality cost very much more to produce than do seeds of the ordinary commercial grade. And yet many merchants, having little or no knowledge of the value of **High-class Seeds**, purchase their supplies wherever they can be obtained the cheapest. It was brought to our notice that some merchants would buy a bill of seeds from us, obtain copies of our catalogs and show-cards, and then purchase a portion of their supplies from other seedsmen, who, growing "*cheap seeds*," could sell at much lower prices. In many cases planters who purchased from their local merchants, thinking that they were obtaining **BURPEE'S SEEDS**, got only a few of our seeds (perhaps in packets), and often the seeds bought by weight or measure were of inferior quality, falsely sold on our reputation, but for which we were not in any way responsible.

This deception was brought so prominently to our attention some years ago that we debated seriously whether we should not decline altogether to sell **BURPEE'S SEEDS** at wholesale. Further consideration, however, showed us that this would hardly be fair to the honorable merchants who had been handling our seeds exclusively for years. Therefore we announced that—

Hereafter we will sell Burpee's
Seeds **ONLY** in sealed packages.

Packets and ounces, in *Water-tight Manila Bags*, are sealed, and bear, plainly printed, either **our Name or Registered Trade-mark Monogram**, protected by United States Letters Patent. Quarter-pounds, pounds, pints, and quarts, in paper bags, have pasted across the top a **green label**, as below :

"The Seal of Quality"

BURPEE'S SEEDS THAT GROW

FOR 1914—"BEST BY TEST"

Genuine,—if this Seal is Unbroken

Facsimile of our well-known "Green Seal."

SEEDS IN BULK,—that is, Peas, Beans, etc., by the peck or bushel, and quantities of small seeds in bags, will have **each sack sealed with our Trade Mark on a leaden seal.**

This plan will be a protection to honest merchants from competition with other seeds falsely claimed to be **BURPEE'S SEEDS**, and at the same time will be a guarantee to the purchaser.

**LARGE DEALERS WHO SELL ON THEIR OWN REPUTATION
CAN BUY SEEDS IN BULK FROM US, AS HERETOFORE.**

While every sack is sealed, the contents can be handled as desired,—except that they must not be sold as **BURPEE'S SEEDS**, unless in original packages.

THE OFFICE AT FORDHOOK FARMS,—where Records of Trials and Crops are kept.

This little two-story building (nearly concealed by trees) was the original "farmhouse" at Fordhook. It was built about one hundred and thirty years ago,—long before we entered the seed business (!),—and when farmers and gardeners thought that they must save their own seeds, to be sure of purity! At that time there was not a single seedsman, in anything like the modern sense, in America and but few in Europe. The Seed Trade is of "modern evolution," and it is acknowledged that nowhere has more been done to inspire confidence in "bought seeds" than at FORDHOOK FARMS,—so famous as the largest trial grounds in America.

THE GREENHOUSES AT FORDHOOK. In these greenhouses and adjoining frames samples of every lot of seeds are tested for vitality. Young plants of certain vegetables and flowers are also started for setting out in the fields. We do *not* grow plants for sale, as we are SPECIALISTS IN SEEDS.

Burpee's Vegetable Seeds.

TEN POUNDS OR MORE WILL BE CHARGED AT 100-POUND RATES.

☞ This Price List Cancels all Previous Quotations. ☞

☞ **A Telegraphic Cipher (or Cable Code)** is attached to each variety, by which orders can be wired at little expense,—using also our code for prices, weights, and measures as given on pages 2, 3, and 4. For example:

Darken Pelew Balcony would mean: Send immediately, by fast freight, forty bushels of BURPEE'S STRINGLESS GREEN-POD BEAN at catalog price.

Dared Breda Cage would mean: Send immediately, by express, fifty pounds of best select JERSEY WAKEFIELD CABBAGE as per special quotation.

Darnel Amoy Lantern would mean: Send immediately, by mail, three pounds of seed of BIG BOSTON LETTUCE.

☞ Please use telegraphic cipher only for telegraphic or cable orders.

Burpee's Seeds Grow!

Lower Prices could easily be quoted were we not practical growers and testers of seeds ourselves.

Were we willing to take simply the "say-so" of other growers in America and Europe, without proving the stocks in greenhouses, frames, and open field trials, we should save thousands of dollars annually. In that case, however, we would never have succeeded in building up and maintaining,—in spite of close competition,—a business that is acknowledged to be the largest direct mail-order seed trade in the world.

New Golden Self-Blanching Celery.

This variety, first introduced in America by us in 1884, is decidedly better in quality than the *White Plume*. It is ready for use nearly as early, blanches as easily, and is larger in size as well as finer in quality. It is of dwarf compact habit, with thick, solid, heavily ribbed stalks which blanch easily to a clear waxen yellow. The stalks are crisp and solid, free from stringiness and of delicious flavor.

The Value of a Guarantee is not in what is said, but who says it.

For thirty-seven years we have stated plainly that, where failure is caused by any fault of the seed, we would refund the full price paid. This should convince even new customers that we have confidence both in the quality of BURPEE'S SEEDS and in the great care exercised in their growing, cleaning, and packing. No honest seedsman could assume responsibility for more than the price actually paid by the purchaser.

About LETTUCE Seed. Practically all the lettuce seed sold in America is raised in California, but, unfortunately, the demand for "cheap" seed has compelled a number of growers to produce seed from plants grown so closely together that they have no opportunity to form well-developed heads; nor can these crops be properly "rogued." Such seed is not to be compared with BURPEE'S!

The Burpee-Quality in Melons.

An Unequaled Record Made in the Past Thirty-Seven Years.

Ever since we began business in 1876 we have been greatly interested in growing melons for seed and have done much to improve existing varieties of both musk melons and watermelons. Besides extensive field crops for seed, we have fruited in our New Jersey trial grounds as many as one hundred and forty varieties of melons unknown to commerce in a single season. While most of these, particularly those of foreign origin, have proved to be of no real value, yet, with such extensive and repeated trials, it is not surprising that **we have introduced eighteen of the Best and Most Popular Melons** now in cultivation. This record is unapproached in the history of any other seed house.

Below is a list of varieties,—both MUSK MELONS and WATERMELONS,—now in commerce which were first introduced by us. The figures before the name signify, of course, the catalog number; the figures in black-face type after the name, the year of introduction.

Fordhook Melon is most vigorous in growth, very early and extremely prolific. The fruits are ready for market fully as early as the green-fleshed *Early Jenny Lind*. The vines grow vigorously and each vine sets from five to nine melons closely around the stem; frequently the fruits touch one another. The melons are remarkably even in size, weighing from 1 lb. 8 ozs. to two pounds each.

WE KNOW SEEDS by means of the FORDHOOK TRIAL GROUNDS.

Burpee's Seeds are "Seeds of Success."

The purchaser of BURPEE'S SEEDS does not buy twenty cents' worth of risk with five cents' worth of seeds,—the Trial Grounds enable us to fill packets with seeds only. Every truck-patch or flower-bed, large or small, is the planter's "trial ground."

We desire that our seeds and not your patience shall be tried there. FORDHOOK FARMS (and SUNNYBROOK) render our desire attainable.

FIVE HUBBARD SQUASHES.—weighing 162 pounds,—engraved from a Photograph.

Grown by W. A. WADSWORTH, R. F. D. 2, Canandaigua, N. Y., from Burpee's Seed of the original Hubbard.

The Best Tomato Seed produced in America to-day is grown at Fordhook and Sunnybrook Farms and by our private growers in Bucks County, Penna., and in New Jersey, subject also to our personal supervision.

This is a strong statement, but complete trials—repeated every season—at Fordhook, together with inspection of methods pursued by other careful growers, from the Atlantic to the Pacific, leave no doubt in our minds as to its absolute truth,—certainly concerning the special strains for which our house has so long been famous. Many extensive planters write us that they cannot obtain Tomato seed anywhere else, at any price, that is *quite equal* to BURPEE'S FORDHOOK- or SUNNYBROOK-GROWN. If YOU are in doubt, test some of our special strains alongside any other seed you are accustomed to use. We are willing to abide by the result of such comparative trials!

Burpee's Selected Seed of TOMATOES.

Twelve of the Best Tomatoes,—first introduced or improved by “The House of Burpee,”—and of which Fordhook and Sunnybrook Strains of Seed are Unequaled!

BURPEE'S MATCHLESS (1889).

TURNER HYBRID (1886).

TRUCKER'S FAVORITE (1893).

FORDHOOK FIRST (1894).

FORDHOOK FANCY (1898).

BURBANK'S PRESERVING (1898).

GOLDEN DWARF CHAMPION (1898).

BURPEE'S QUARTER-CENTURY (1900).

CHALK'S EARLY JEWEL (1903).

BURPEE'S EARLIEST PINK (1906).

SUNNYBROOK SPECIAL EARLIANA (1907).

BURPEE'S DWARF-GIANT (1909).

Search every Seed Catalog published and you will not find any other twelve Tomatoes of similar types that can take the place of these popular BURPEE-STANDARDS. Buy wherever you may,—plant side by side,—and we think you will come to the conclusion that Burpee's Tomato Seed as grown upon our Pennsylvania and New Jersey farms is really *unequaled!* This applies not only to the above twelve but is true also of several other varieties, upon which we likewise “specialize.” Most seedsmen charge less for Tomato seed than do we,—but the seed is usually worth correspondingly less. What does the cost actually matter when you consider that it requires only two ounces of seed to produce sufficient plants to set out an acre?

The Value of a Guarantee is not in what is said, but who says it.

For thirty-seven years we have stated plainly that, where failure is caused by any fault of the seed, we would refund the full price paid. This should convince even new customers that we have confidence both in the quality of BURPEE'S SEEDS and in the great care exercised in their growing, cleaning, and packing. No honest seedsman could assume responsibility for more than the price actually paid by the purchaser.

Burpee's Flower Seeds

are just as carefully and as thoroughly tested as our **Vegetable Seeds**, and we know that there is not offered seed of any better quality than stocks we now have in our warehouse.

If you have never carried flower seeds in stock, there is no better way to try the taste of your customers than by offering the special Sweet Pea, Nasturtium, and Gem Collections, offered on page 64.

Our **Flower Seed Box**, offered on page 62, gives a very convenient way of handling the separate packages at a very slight cost.

“Proved by Test.” Unless you should order some variety that we do not catalog and instruct that we get it for you (when we shall send it at your risk,—in its original package), you may be absolutely sure that you will receive from us only such stocks of strictly high-grade seeds as have been proved absolutely **“Best by Test.”**

Many seedsmen have much to say about tested seeds, but unfortunately with most dealers this applies only to blotter tests for vitality. Our tests for vitality are *soil* tests. While necessary that *seeds grow*, it is of prime importance that they shall be of choicest selected strains, such as can be relied upon to produce products **“true to type.”** This can be learned only by thorough field trials. No other seedsmen in America make so many or such complete trials as are conducted annually at our famous FORDHOOK, FLORADALE and SUNNYBROOK FARMS.

Floradale Farm produces in addition to tons of Sweet Pea seed the very finest strains of *Centaurea Imperialis*, *Cosmos*, *Dahlias*, *Delphiniums*, *Dimorphotheca*, *Eschscholtzia*, *Hollyhocks*, *Marigolds*, *Petargoniums*, *Nasturtiums*, *Petunias*, *Pentstemons* and *Verbenas*.

Burpee's "Four of the Finest" for 1914 Grand New Spencer Sweet Peas.

King White (Burpee's). Too much cannot be said in praise of this unique new white Spencer. It has all the first-class qualities which go to form Sweet Pea perfection. It is remarkable for the "*glistening immaculate purity of the whiteness*" and the perfect finish of the flower. While of truly gigantic proportions the flowers are most exquisitely finished in every detail. KING WHITE has such marvelous substance,—which might almost be termed "leathery,"—that it is entirely free from the objectionable reflexing habit so generally found in the standard of other whites. The grand flowers are borne almost invariably in "fours" upon stout stems of great length. The bold, widely expanded standard is waved exquisitely, while the wings, also well waved, are beautifully placed. The plants are exceptionally vigorous in growth with distinctive rich green foliage, and wonderfully profuse in bloom for a long season. KING WHITE received an Award of Merit from THE NATIONAL SWEET PEA SOCIETY OF ENGLAND, July, 1912, after having been grown in their trials; also Award of Merit by THE ROYAL HORTICULTURAL SOCIETY OF ENGLAND, July, 1913; Certificate of Merit by THE PENNSYLVANIA HORTICULTURAL SOCIETY, Philadelphia, June 26, 1913; and Bronze Medal from THE NORTH LONSDALE ROSE SOCIETY, Ulverston, England, July, 1913.

In sealed packets containing fifteen seeds each : **Per pkt. 15 cts.; \$1.00 per dozen pkts.; \$7.00 per 100 pkts.** In lots of 500 pkts. or more, **\$6.25 per 100 pkts.** (Cable word, REX.)

In sealed packets containing thirty seeds each : **Per pkt. 25 cts.; \$2.00 per dozen pkts.; \$13.75 per 100 pkts.** In lots of 500 pkts. or more, **\$12.50 per 100 pkts.** (Cable word, KING.)

Illuminator (Burpee's). It is almost impossible to adequately describe the beauty and surpassing grace of this unique novelty. In color it is perfectly distinct from all other varieties and has been pronounced *the most glorious Sweet Pea ever seen*. It might be described as a rich glowing cerise-salmon, with an indication of bright orange suffusion which marvelously scintillates and glistens under bright sunlight; under artificial light the flowers appear to be a glowing orange-scarlet. Uniformly of large size and great substance. The flowers are most perfectly formed, and well placed on long stout stems, frequently in "fours." Of vigorous growth, the vines carry a rich profusion of bloom. We were awarded a Certificate of Merit for ILLUMINATOR both by the American Sweet Pea Society at the great Boston Show, July, 1913, and The Pennsylvania Horticultural Society, Philadelphia, June 26, 1913.

In sealed packets containing twelve seeds each : **Per pkt. 15 cts.; \$1.00 per dozen pkts.; \$7.00 per 100 pkts.** In lots of 500 packets or more, **\$6.25 per 100 pkts.** (Cable word, SHINING.)

In sealed packets containing twenty-five seeds each : **Per pkt. 25 cts.; \$2.00 per dozen pkts.; \$13.75 per 100 pkts.** In lots of 500 packets or more, **\$12.50 per 100 pkts.** (Cable word, ILLUMINATOR.)

Wedgwood (Burpee's). This beautiful novelty is likely to become quite as popular in the Sweet Pea world as the famous china is among connoisseurs. WEDGWOOD is a unique shade of lovely light blue and completely eclipses such varieties as *Flora Norton Spencer*, *Princess Mary*, *Southcote Blue* and *Zephyr*. The flowers, of good size and substance, are well waved in both standard and wings; they are borne almost uniformly in four-flowered sprays upon long stout stems. WEDGWOOD is a color long sought for in Sweet Peas and will be eagerly welcomed by all lovers of this beautiful annual. It was awarded a Certificate of Merit by the Pennsylvania Horticultural Society at the Philadelphia Sweet Pea Show, June 26, 1913.

In sealed packets containing twelve seeds each : **Per pkt. 15 cts.; \$1.00 per dozen pkts.; \$7.00 per 100 pkts.** In lots of 500 packets or more, **\$6.25 per 100 pkts.** (Cable word, CHINA.)

In sealed packets containing twenty-five seeds each : **Per pkt. 25 cts.; \$2.00 per dozen pkts.; \$13.75 per 100 pkts.** In lots of 500 packets or more, **\$12.50 per 100 pkts.** (Cable word, WEDGWOOD.)

Empress Eugenie (Burpee's). This beautiful novelty was awarded a Certificate of Merit by the American Sweet Pea Society, June 29, 1911, but owing to its shy seeding character we have not been able to introduce it until this season. The color is a delicate tone of light gray, flaked with light lavender. A vase or bunch of EMPRESS EUGENIE gives a most charming effect. The flowers are of large size, beautifully waved and crimped. A vigorous grower and very free bloomer, throwing a large proportion of four-flowered sprays.

In sealed packets containing fifteen seeds each : **Per pkt. 15 cts.; \$1.00 per dozen pkts.; \$7.00 per 100 pkts.** In lots of 500 packets or more, **\$6.25 per 100 pkts.** (Cable word, EMPRESS.)

In sealed packets containing thirty seeds each : **Per pkt. 25 cts.; \$2.00 per dozen pkts.; \$13.75 per 100 pkts.** In lots of 500 packets or more, **\$12.50 per 100 pkts.** (Cable word, EUGENIE.)

BURPEE'S FLOWER SEEDS.

ONE-QUARTER pound furnished at pound rates, and, except where otherwise priced, one-quarter ounce at ounce rates, where not less than sixty cents per ounce. Of the cheaper flower seeds, not less than one-half ounce will be supplied at ounce rates. *Not less than one ounce will be supplied of varieties priced at 15 cts. or less per ounce.*

These flower seeds are all of the finest strains of the best varieties, and are sure to give satisfaction. While many are grown by ourselves at FORDHOOK, FLORADALE, and SUNNY-BROOK FARMS, or by our private growers in America, all are tested thoroughly both for vitality and purity. Those that are imported are obtained only from the best growers in Europe, whose crops we have repeatedly inspected. The whole makes a collection unexcelled in uniform excellence of quality and vastly superior to the commercial grades commonly sold.

As is well known, we are headquarters for Sweet Peas (see preceding pages), supplying the most critical trade, both at home and abroad, with thousands of pounds annually.

We call your attention especially to our Nasturtium seed, which is grown for us under careful supervision, and is of a quality much superior to the usual strains offered to the trade. See page 56.

BURPEE'S SEEDS GROW!

This well-known motto is equally true of our Flower Seeds as of Vegetable Seeds. The vitality of each variety is proved thoroughly before the seed is offered for sale.

FORDHOOK FARMS are open for inspection to our customers throughout the growing season (July and August), but those coming from a distance should advise us several days ahead as to when they expect to call. For years we have made a specialty of producing at Fordhook the finest strains of flower seeds, especially *Antirrhinums*, *Balsams*, *Free-Flowering Begonias*, *Celosia Plumosa*, *Chrysanthemums* (*Perennial*), *Coleus*, *Dolichos*, *Gourds*, *Heliotrope*, *Marigolds*, *Petunias*, *Phlox Drummondii*, *Poppies*, *Portulacas*, *Salvias*, *Sunflower*, *Torenia* and *Zinnias*.

Summer=Flowering Bulbs.

The bulbs offered here are of the finest quality, being grown especially for us. Twenty-five bulbs or more of one kind will be supplied at the rates per 100. Special quotations on large quantities. For *Dahlias*, see next page.

Field-Grown Roots of Choicest **DOUBLE DAHLIAS.**

Dahlias are becoming more popular every year, the reason for which is not far to seek, as the lovely and showy blooms are at their best when the other flowers of our gardens have lost their freshness.

Write for prices on "mailing size" roots should you desire to purchase these in quantity.

One of the Seven Entrances to BURPEE'S FORDHOOK FARMS.

Burpee's Fordhook Farms are the Largest and Most Complete Trial Grounds in America

At FORDHOOK FARMS (supplemented by our farms in California and New Jersey) all seeds are tested, but we "*hold fast* only to that which is good!" The field trials number fully seven thousand, while more than fifteen thousand soil tests for vitality are made also every year. The vitality can be proved easily before planting, but not even an "expert" examination would reveal whether seeds are of a high-grade pedigree strain or the veriest rubbish.

The fact that more planters order direct from us,—year after year,—than from any other firm in America shows that BURPEE'S "*SEEDS THAT GROW*" *have been proved trustworthy*. A mistake may occasionally occur, however, while success depends largely upon conditions of soil and climate, hence no honest seedsman could assume responsibility for more, than the price actually paid by the purchaser. For thirty-seven years we have stated plainly that, should failure result from any fault of the seed, we would promptly refund the price paid. This ought to convince even new customers that we have confidence both in the quality of BURPEE'S SEEDS and in the safeguards with which we surround their growing, cleaning, and packing.

At no other farms in America is there expended so much time and money each season in "proving stocks," while at no other warehouse is greater care exercised in handling seeds. Planters who may visit Philadelphia are invited to inspect the BURPEE BUILDINGS, where we shall be pleased to explain the workings of the various departments. We have nothing to conceal, and are glad, also, to have customers examine the crops and trials during the season at our FORDHOOK, SUNNYBROOK and FLORADALE FARMS.
